WHO WE ARE

ABOUT US

Future Nutrition is an Irish family business in ownership and nature. We pride ourselves on product quality, innovation and service in everything that we do. It is our passion, it is our focus, and it is what we believe creates the future of nutrition for the sport, active and lifestyle consumer.

OUR RICH HISTORY

Established in 2010, Future Nutrition is located on the same original site as our sister company Donohoe Drinks who developed, manufactured and bottled spirits, beers and soft drinks since 1876. We have grown from a fast paced start up to a global functional beverage and powder manufacturer, working with some of the largest consumer brands across the globe. Our trademark agility allows us to work with small, medium and large clients.

OUR CAPABILITIES

We are a private-label formulation, development, and manufacturing partner dedicated to creating great-tasting functional beverages and ready-to-mix powders. From 60ml shots to multi-serve concentrates, we provide solutions across a broad range of categories.

WHAT WE DO

SHOTS

Future Nutrition is renowned as Europe's go to provider for high quality, functional shots. Our bespoke formulations cater to a wide range of needs, including pre workout, energy, beauty and protein. With a reputation for excellence, we deliver on the go solutions that meet the evolving demands of today's consumers.

CONCENTRATES

With state of the art machinery, we develop market leading concentrates that deliver exceptional taste and performance. Whether you're targeting energy, recovery, or overall wellness, we create concentrates designed for convenience and impact.

Our concentrates feature a built in serving cup, with dosing from 5ml up to 60ml.

POWDERS

We develop on trend powders with leading formulations, delivering best in class taste. From protein powders and hydration to beauty and longevity, we deliver excellence across all categories.

We offer exceptional flexibility, providing formats such as sachets, jars, and pouches.

WHERE WE FOCUS

SPORTS NUTRITION

We develop next-generation solutions for energy, endurance, muscle building, hydration, and recovery.

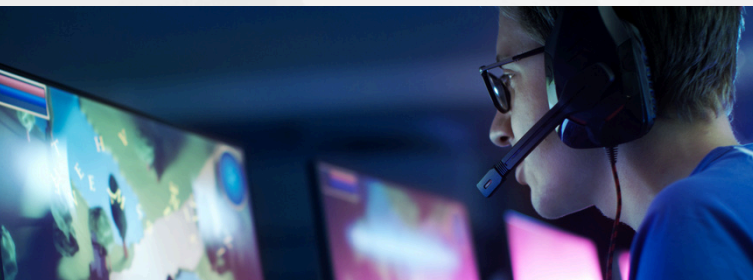

ACTIVE NUTRITION

Supplements like protein, creatine, and hydration blends are now part of everyday routines, supporting health, wellness, and active lifestyles for consumers of all ages.

HEALTH & WELLNESS

If you're not healthy, you can't perform at your best. We develop functional, better for you products designed to support every aspect of wellbeing, from immune health and weight management to longevity, cognition and gut health.

GAMING

Whether it is Call of Duty, FIFA or Gran Turismo, we develop products that keep gamers energised, focused and on top of their game.

QUALITY & SUSTAINABILITY

FSSC 22000

Future Nutrition is committed to world class food safety. Our facility is proudly FSSC 22000 certified. This certification demonstrates that we operate with robust, globally recognized systems designed to ensure the highest levels of product safety and quality.

ORIGIN GREEN

We are verified members of Origin Green, Ireland's food and drink sustainability program. To earn Origin Green status we must set and achieve measurable sustainability targets.

INFORMED SPORT

Our facility is certified on the Informed Manufacturer programme. We are regularly screened for substances prohibited in sport, using a robust testing process. This provides clients with confidence that their product is suitable for everyone, including professional athletes.

MANUFACTURER

ESSNA

We are members of ESSNA, the European alliance of responsible sports nutrition producers and brands.

GOVERNANCE

Our premises are approved and registered by the Department of Agriculture, Food and the Marine of Ireland in accordance with National and European regulations governing food hygiene.

HALAL

We offer halal certified manufacturing where required, ensuring all products are developed in line with recognised halal standards.
